PROFESSIONAL PROFILE

B.Tech (Hons) in Manufacturing Technology undergraduate with six months of NERDC training in mechanical design, machining and electric vehicle evaluation. Additional industrial training covers home appliance production, preventive maintenance and machine troubleshooting. Combines practical mechanical experience with academic knowledge of electrical technology and industrial management. Applying for Assistant Engineer - Mechanical at SLAM Power Solutions.

MECHANICAL AND TECHNICAL SKILLS

CAD and design: SolidWorks 3D modelling, assemblies and drafting; AutoCAD technical drawings.

Manufacturing: Conventional machining, mechanical assembly and alignment; CNC machining exposure.

Engineering software: Basic ANSYS simulation; Microsoft Excel, Word and PowerPoint.

ENGINEERING EXPERIENCE

Trainee Mechanical Engineer 22 Oct 2025 - 22 Apr 2026

National Engineering Research and Development Centre (NERDC)

Technology Incubator Section

- Developed 3D models and mechanical assemblies using SolidWorks; prepared technical drawings using CAD software.
- Participated in mechanical assembly and component alignment during practical training.
- Gained practical experience in conventional milling, turning, surface grinding and drilling.
- Gained exposure to CNC milling, CNC lathe operations and CNC laser cutting.
- Contributed to technical evaluations of electric vehicles in collaboration with the NERDC team.
- Supported the evaluation of electric three-wheeler conversion kits.

Industrial Trainee Jan 2024 - Apr 2024

Singer (Sri Lanka) PLC / Regnis Factory Complex

- Completed industrial training in a large-scale home appliance manufacturing environment.
- Gained practical experience in production processes, preventive maintenance and machine troubleshooting.

Dulshan Kalansuriya

Education and professional development

EDUCATION

B.Tech (Hons) in Manufacturing Technology May 2023 - Present

University of Vocational Technology, Ratmalana

Honours degree in progress

Selected coursework relevant to mechanical engineering, technical operations and management:

Mechanical and manufacturing: Machine Design, Engineering Mechanics, Manufacturing Technology, Engineering Measurements, and Pneumatic and Hydraulic Systems.

Electrical and thermal systems: Electrical Technology, Principles of Electronics, Control Systems, Thermodynamics and Applied Thermodynamics.

Management and professional studies: Industrial Economics & Management, Materials and Inventory Management, Occupational Health and Safety, Research Methods, and Communication Skills for Engineering Technologists.

G.C.E. Advanced Level 2021 Examination

Talawa National College

Engineering Technology stream | Results: 1 B and 2 C passes.

LEADERSHIP AND PROFESSIONAL MEMBERSHIPS

Secretary | IET Student Branch

Institution of Engineering and Technology, University of Vocational Technology.

Member | IEEE Student Chapter

Institute of Electrical and Electronics Engineers, University of Vocational Technology.

Member | SEDS Student Chapter

Students for the Exploration and Development of Space, University of Vocational Technology.

ADDITIONAL QUALIFICATIONS

Diploma in English Language

British Way English Academy

Certificate Course in Information and Communication Technology

British Way English Academy

LANGUAGES AND WORK AVAILABILITY

Languages: Sinhala - Native; English - Proficient.

Availability: Monday to Friday. University lectures are scheduled on weekends.
